EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee. There is no charge since this corrects a typographical error that applicant was not notified of in the final rejection.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Bryan J. Lempia on May 25, 2006.

The application has been amended as follows:

Claim 11, line 1, "9" has been changed to --10--.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: As to claim 1, the Peg Perego five point buckle is the closest art of record and teaches a buckle body having first and second openings, first and second waist strap fasteners and first and second shoulder strap fasteners. This claim incorporates the subject matter of objected claim 2 that was indicated in the office action of August 24, 2005 as containing allowable subject matter over and above the teachings of the Peg Perego five point buckle. In particular there is no suggestion to modify the connection between each top coupling section of the first and second waist strap fastener so as to comprise "an arm perpendicular to a respective opening of the openings" of the buckle body when the first and second waist strap fasteners are coupled to the buckle body and to have

respective bottom coupling sections of the first and second shoulder strap fasteners configured for coupling with top coupling sections having such a different configuration from that of the Peg Perego five point buckle. In regard to claim 10, Anscher (US 6393677, figures 1, 2) is the closest art of record and teaches a buckle assembly comprising a buckle body 11 having first and second openings 19, first and second waist strap fasteners 12, 13 and first and second shoulder strap fasteners 30. The reasons for allowance for claim 10 provided by applicant in the response received December 13, 2004 in the remarks on page 5, ¶6, line 5 through page 6, through the second complete paragraph are incorporated herein as the reasons for allowance for claim 10.

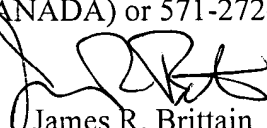

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
